IRIS VAN HERPEN

CORSET BELTS

WWW.IRISVANHERPEN.COM

SCULPTING THE SENSES

Intricately carved using pioneering laser-cutting techniques, the newly launched Iris van Herpen Corset Belts take inspiration from the brand's visionary Haute Couture creations.

Drawing from the ebb and flow of tides and the shifting scape of dunes, fluid outlines and rippling patterns offer luxurious refinement to the wardrobe of a modern muse. The leather corset belt elegantly encircles the waist, sculpting an hourglass silhouette and accentuates the feminine form.

Available in four nuanced designs and four colourways per style, the Iris van Herpen Corset Belts are designed in our Amsterdam maison, developed within our atelier and crafted in Italy by artisans; using the finest nappa calf leathers.
